DIVISION IN HOUSE.

The House divided upon the Questions set out as follows:

This table of reference to the Divisions proposes only to point to matters in dispute upon which the House *actually divided*. If it be desired to consult the Press for speeches or details, the date of the Debate in Chamber is shown upon top of page of Journal, and the day *following*, will, in almost all cases, give report of proceedings in the Press. For table from 1867-8 down to 1900, see General Index to Journals 1899 to 1900 and from 1901 to 1912, see General Index to Journals 1901 to 1912. See also, Index to Debates, published separately. See *Supply*.

By rule 88, on Questions of Adjournment of the House, or Debate, the number *only* of Division List, shall be entered on the Journal.

Session of	Page of Journal	Subject Matter of Question.
1913	15, 30,	A DDRESS TO HIS HONOUR: On motion to add certain words to, regretting that Government has failed to propose legislation amending the Assessment Act, authorizing municipalities to assess or to tax buildings, business and incomes on a lower basis than land. See <i>below</i> .

1917	243-4	SUPERANNUATION: On motion for third reading of Bill respecting the, of teachers and inspectors.
1920	343	On motion for third reading of Bill respecting retiring allowances of Civil Servants and six months' hoist proposed.

Session of	Page of Journal	Subject Matter of Question.
1913	126-7, 134-6	<p>SUPPLY AMENDMENTS:*</p> <p>This Assembly, while prepared to approve of all reasonable expenditure to increase the efficiency of the public services of the Province, and to improve the conditions of both rural and urban life, views with apprehension the growing deficits in the Provincial finances as disclosed in the financial statement presented to the Assembly in 1911, 1912 and 1913, without any adequate provision being made for securing the necessary revenue to meet the increasing expenditures.</p> <p>That this Assembly condemns the extravagant and wasteful expenditures of the Government, as illustrated by the actual and prospective expenditure of over \$700,000 in the site, erection and furnishing of the new Government House; and this Assembly further condemns the unbusinesslike and improvident action of the Government in placing the new Government House on a site which is entirely unsuitable for the purpose, by reason of its inaccessibility and its immediate proximity to the Canadian Pacific Railway, the Grand Trunk Railway, (Belt Line), the Canadian Northern Ontario Railway, and the Don Valley Brick Works.</p>
1913	157-168	<p>In view of the rapid growth of the industrial population of the Province and the great value of Fish as a cheap and wholesome food product, this House views with alarm and regret the rapid depletion of the Provincial Fisheries owing to their exploitation by the Chicago Fish Trust, or Combine and the lax enforcement of the Fishery regulations as revealed in the Report of the Fish and Game Commission, 1909-11; and this House is of the opinion that the Government in failing to take any action upon the Report of the Fish and Game Commission to protect and preserve the lake fisheries of the Province has been derelict in its duty and has proven itself indifferent to the best interests of the people of this Province.</p>
1913	215	<p>In the opinion of this House the placing at the disposal of the Executive of the Province, under the Act passed in the second year of the reign of His Majesty King George the Fifth and chaptered 2, of so large a sum the same to particular works, is contrary to our Con-</p>

*The amendments here set out are "Want of Confidence" motions, to which no amendment can be made, proposed in amendment to the motion "That Mr. Speaker do now leave the chair."

Session of	Page of Journal	Subject Matter of Question.
1913	224	<p>stitutional usages: subversive of the right of the people as \$5,000,000 without a vote of this House appropriating through their representatives in the Legislative Assembly assembled to control and direct the expenditure of public moneys: in contravention of the accepted principle of voting supply for the ensuing year only, and is inimical to the best interests of the Province.</p> <p>In view of the immense unoccupied areas in the Northern and North Western parts of the Province awaiting settlement and development, this House regrets that the Government has so far failed to devise and submit to the House any comprehensive or adequate policy for the settlement and development of these new territories.</p> <p>This House deprecates the attitude assumed by the Government, as set forth in the manifesto of the Prime Minister on the 31st October, 1911, that "the only result of the additions to our population in the newer districts, as far as the Government of the Province is concerned, is that the annual general Provincial expenditure is increased, while the Dominion Treasury receives large sums annually by reason of the increased consumption of goods paying tariff duties, and in the older sections of the Province the amounts received for municipal taxation are increased.</p> <p>This House believes that good settlers are real and valuable assets and not liabilities, and that it is the duty of the Government, in addition to what is now being done in the construction of roads, to devise and carry out: (1) An aggressive publicity campaign to make known the character and resources of the Province; (2) An intelligent and vigorous immigration policy to secure the right kind of settlers; (3) Adequate transportation, and drainage facilities, to promote settlement; and (4) Improved conditions of settlement.</p>
1913	299	<p>This House is of the opinion that the Violation of the License laws by the open sale of liquor upon steamboats and railroads within the Province, and the policy of the License Department of imposing one fine yearly on the steamboats, apparently as a license fee, is bringing the administration of the License laws into disrepute throughout the Province. This House is further of the opinion that the administration of the Liquor License law in Northern Ontario, and the relation of the Provincial Police thereto should be thoroughly investigated by an impartial tribunal with a view to cor-</p>

Session of	Page of Journal	Subject Matter of Question.
1913	324	<p>recting the serious abuses which are alleged to exist, and putting an end to the open and flagrant violations of the law through the operations of the so-called "blind pigs."</p> <p>In view of the increasing danger of floods in many sections of the Province, due to certain of the rivers and streams overflowing their banks at the period of the spring freshets, causing serious destruction of property, and in view of the representations made to the Government by representatives of the Municipalities on the Grand River in the year 1908, and subsequent years, urging an investigation of the matter by the Government; this House is of the opinion that the Government should no longer delay a thorough investigation of the causes of these floods and of the procedure which should be adopted in order to avoid the danger of flood and to regulate and control more effectively the flow of water in the rivers and streams of the Province.</p>
1914	62, 69	<p>This House disapproves of and protests against (1) the presentation to this House by the Honourable the Provincial Treasurer of financial statements which do not fairly set forth the real character of the financial transactions of the Government; (2) the extravagant and wasteful expenditure of public money by the Government, as illustrated by the expenditure on new Government House, when important public services such as Education and Agriculture are in great need of further funds; (3) the vicious system of raising moneys on the credit of the Province for particular purposes authorized by the Legislature, and then applying these trust funds to other purposes—as illustrated by the use during the year 1913 of over \$600,000 raised for Northern Ontario, for other purposes.</p>
1914	107	<p>In view of the fact that the Financial Statements and Estimates presented to the House by the Government are so incomplete that it is not possible for the Members of the House to properly estimate the total expenditure for the year, this House should not be called upon to vote further supply until the Government lays before the House a fuller statement of the total estimated expenditure for the current year, particularly the statutory expenditure, which for the year 1913 amounted to \$4,694,676.79, in order that the Members of the House may see what will be the prospective deficit on the year's financial operations.</p>

Session of	Page of Journal	Subject Matter of Question.
1914	315-16	<p>In view of the statements contained in the prospectus or memorandum offering \$1,000,000 of the First Mortgage Bonds of the Lake Huron and Northern Ontario Railway Company (which prospectus or memorandum includes the statement of the Vice-President and General Manager and the Engineer's Report), and in view of the further statement of the Engineer's Report that 'the cash subsidy and land grant associated with this charter gives us a basis of estimating an unquestionable present worth value of \$9,338,400, made up as follows:—</p> <p>306 miles at a subsidy of \$6,400 <i>per</i> mile. \$1,958,400 00 1,230,000 acres of land at \$6 <i>per</i> acre. . . . 7,380,000 00</p> <p style="text-align: right;">Total. \$9,338,400 00'</p> <p>And in view of the further statement that 'the bond issue is protected by a subsidy of \$6,400 <i>per</i> mile granted by the Dominion Government and 4,000 acres of land <i>per</i> mile granted as a bonus by the Province of Ontario, which land is adjacent to the line and which, at a reasonable valuation is worth from \$8 to \$10 <i>per</i> acre.'</p> <p>This House condemns the policy of the Government in alienating large and most valuable areas of the Public Domain to railway exploiters without adequate return to the people of the Province.</p>
1915	...	NONE.
1916	...	NONE.
1917	110-11	<p>This House condemns the deplorable waste and misuse of public funds of the Province, arising out of the present system of expending the moneys voted for colonization roads, whereby the moneys are distributed among the political supporters of the Government, a few hundred dollars each and disbursed as they think best without having regard to the development and maintenance of an adequate system of roads in each district; and this House is of the opinion that the continuation of the said system, which involves the annual loss to the Province of thousands of dollars is wholly inexcusable and indefensible, particularly at war time when it is the duty of the Government to lead the country in the practice of economy and thrift; and this House is further of the opinion that the best interests of the Province demand that the whole system should be immediately discontinued and that in organized townships moneys voted by the Legislature for colonization roads should be paid to and expended by</p>

Session of	Page of Journal	Subject Matter of Question.
1917	168	<p>the municipal corporations of such townships, under the supervision of the Government, and that in unorganized townships the work should be let by tender after adequate public notice so there may be free competition.</p> <p>In view of the present high cost of living and the increasing burden upon the working classes and those in receipt of limited incomes, due to the high cost of the necessities of life, this House condemns the abandonment by the Government of the investigation and prosecution of the illegal combines formed to limit competition and to enhance prices, notwithstanding the advice of the then Crown Attorney of the City of Toronto that these combines were violating the provisions of the Criminal Code, and that the Government was in possession of the necessary evidence to proceed with prosecution; and this House is of the opinion that these illegal combines to enhance prices still exist in the Province, and that it is the duty of the Government to investigate all alleged illegal combinations in restraint of trade and to prosecute vigorously all those which appear to be violating the law, and to take all such further action as may protect the consumer against the cost of the necessities of life being unduly enhanced by monopolies and combines which unfairly limit that competition.</p>
1917	205	<p>This House regrets that notwithstanding the war the Government has continued its extravagant and wasteful expenditures in the building and furnishing of Government House, over \$400,000 having been expended since the outbreak of the war, with a total cost to date of over \$1,000,000;</p> <p>And this House is of the opinion that so expensive a Government House is out of harmony with the democratic spirit of the people of the Province.</p>
1917	221-2	<p>In view of the finding of the Royal Ontario Nickel Commission that any of the processes now in use for refining nickel could be successfully worked in Ontario, and that conditions and facilities are at least as good in this Province as in any other part of Canada, and "there is reason to believe that the cost of refining in the International Nickel Company's new plant at Port Colborne will be less than at their existing works in New Jersey;"</p> <p>And further referring to future wars, that "If the United States were to decide she needed for her own use the nickel now being refined there from Canadian ore . . . the result might well be a shortage of nickel, while the</p>

Session of	Page of Journal	Subject Matter of Question.
1918 1919	... 63-4	<p>need was at its height; and a shortness of nickel might be a weakness sufficient to determine the issue of the war;" And in further view of the finding of the Commission that the nickel ore deposits of Ontario are much more extensive and offer better facilities for the production of the nickel at a low cost than do those of any other country, "and that when normal peace conditions are fully restored, the demand will be greater than it was before the war"; And in further view of the interest which the Government of the United Kingdom has taken in recent years in the Ontario nickel deposits, and of the financial interest they have recently acquired in one of our Canadian nickel companies;</p> <p>This House is of the opinion that negotiations should be at once entered into by the Government of this Province with the Governments of the United Kingdom and of the Dominion of Canada to secure united action to acquire the absolute control of the nickel mines and nickel product of the Province of Ontario; and that, in the meantime, the Government of Ontario should take proceedings to acquire, construct or otherwise secure the control of nickel refining plant in this Province where all nickel mined in this Province could be refined.</p> <p>NONE.</p> <p>In the Accounts for the years 1913-14, 1914-15, 1915-16, 1916-17, 1917-18 and for the portion of the year 1918-19, down to the 28th day of February, 1919, relating to the License Branch of the Provincial Secretary's Department, the enforcement of the Liquor License Act and the enforcement of the "Ontario Temperance Act" and all matters relating to the administration of the "Ontario Temperance Act," down to the present time, be referred to a Special Committee of this House, composed of nine Members of the Legislative Assembly, five of whom shall be nominated by the Premier and four by the Leader of the Opposition, with instructions to enquire and report upon the same and upon all matters and things which relate thereto or effect the same and with power to send for and examine all necessary persons and papers in or concerning the premises and to examine witnesses on oath and with power to sit for such purposes during any adjournment of the House.</p> <p>This House disapproves of and protests against (1) the presentation to this House by the Honourable the Provincial Treasurer of financial statements which do not fairly</p>
1919	64-5	

Session of	Page of Journal	Subject Matter of Question.
		set forth the real character of the financial transactions of the Government; (2) the extravagant and wasteful expenditure of public money by the Government, as illustrated by the annual expenditure on maintenance of the Government House, when important public services such as Education, Agriculture and Roads are in great need of further funds; (3) the concealment of specific and important items of current receipts in respect of any Department under the heading of "Casual Revenue," as illustrated by the entries made of revenue from work done by tractors, sale of seed wheat and the Dominion grant for food production, in the statement for 1917-18; (4) the treatment of receipts from the disposal of capital assets, such as timber, as current receipts, while at the same time treating the payments as on capital account when it is apparent from their nature they should be disbursed as payment out of current revenue; (5) the exorbitant cost of civil government at the present time.
1920	...	NONE.
		T EMISKAMING AND N. O. RAILWAY.

1. Disapproving of presentation to the House of financial statements which do not set forth the real character of the financial transactions of the Government, etc., and Debate on adjourned, 62, 67. Negatived, 69.
2. As to incompleteness of Estimates and that House should not be called upon to vote further supply until the Government lays before the House a fuller statement of the total estimated expenditure for the current year, particularly statutory expenditure, negatived, 107.
3. Condemning policy of Government in alienating large and most valuable areas of the Public Domain to railway exploiters. Negatived, 315-16. See *Lake Huron and Northern Ontario Railway*.

1915.

This being *War Session*, no amendments were offered.

*The Amendments set out here are "Want of Confidence" motions.

1916

SUPPLY—*Continued.*

No amendments offered.

1917.

1. That this House condemns the deplorable waste and misuse of the public funds of the Province, arising out of the present system of expending the moneys voted for colonization roads, whereby the moneys are distributed among the political supporters of the Government, a few hundred dollars each and disbursed as they think best without having regard to the development and maintenance of an adequate system of roads in each district; and this House is of the opinion that the continuation of the said system, which involves the annual loss to the Province of thousands of dollars is wholly inexcusable and indefensible, particularly at war time when it is the duty of the Government to lead the country in the practice of economy and thrift; and this House is further of the opinion that the best interests of the Province demand that the whole system should be immediately discontinued and that in organized townships moneys voted by the Legislature for colonization roads should be paid to and expended by the municipal corporations of such townships, under the supervision of the Government, and that in unorganized townships the work should be let by tender after adequate public notice so there may be free competition. *Negated, 110-11.*
2. That in view of the present high cost of living and the increasing burden upon the working classes and those in receipt of limited incomes, due to the high cost of the necessities of life, this House condemns the abandonment by the Government of the investigation and prosecution of the illegal combines formed to limit competition and to enhance prices, notwithstanding the advice of the then Crown Attorney of the City of Toronto that these combines were violating the provisions of the Criminal Code, and that the Government was in possession of the necessary evidence to proceed with prosecution; and this House is of the opinion that these illegal combines to enhance prices still exist in the Province, and that it is the duty of the Government to investigate all alleged illegal combinations in restraint of trade and to prosecute vigorously all those which appear to be violating the law, and to take all such further action as may protect the consumer against the cost of the necessities of life being unduly enhanced by monopolies and combines which unfairly limit that competition. *Negated, 168.*
3. That this House regrets that notwithstanding the war the Government has continued its extravagant and wasteful expenditures in the building and furnishing of Government House, over \$400,000 having been expended since the outbreak of the war, with a total cost to date of over \$1,000,000; and this House is of the opinion that so expensive a Government House is out of harmony with the democratic spirit of the people of the Province. *Negated, 205.*

SUPPLY—*Continued.*

4. That in view of the finding of the Royal Ontario Nickel Commission that any of the processes now in use for refining nickel could be successfully worked in Ontario, and that conditions and facilities are at least as good in this Province as in any other part of Canada, and 'there is reason to believe that the cost of refining in the International Nickel Company's new plant at Port Colborne will be less than at their existing works in New Jersey;'
- "And further referring to future wars, that 'If the United States were to decide she needed for her own use the nickel now being refined there from Canadian ore . . . the result might well be a shortage of nickel, while the need was at its height; and a shortness of nickel might be a weakness sufficient to determine the issue of the war;'
- "And in further view of the finding of the Commission that the nickel ore deposits of Ontario are much more extensive and offer better facilities for the production of the nickel at a low cost than do those of any other country, 'and that when normal peace conditions are fully restored, the demand will be greater than it was before the war';
- "And in further view of the interest which the Government of the United States has taken in recent years in the Ontario nickel deposits, and of the financial interest they have recently acquired in one of our Canadian nickel companies;
- "This House is of the opinion that negotiations should be at once entered into by the Government of this Province with the Governments of the United Kingdom and of the Dominion of Canada to secure united action to acquire the absolute control of the nickel mines and nickel product of the Province of Ontario; and that, in the meantime, the Government of Ontario should take proceedings to acquire, construct or otherwise secure the control of nickel refining plant in this Province where all nickel mined in this Province could be refined. 221. Negatived, 222.

1918.

No Resolutions offered.

1919.

1. That the Accounts for the years 1913-14, 1914-15, 1915-16, 1916-17, 1917-18 and for the portion of the year 1918-19, down to the 28th day of February, 1919, relating to the License Branch of the Provincial Secretary's Department, the enforcement of the Liquor License Act and the enforcement of the "Ontario Temperance Act," and all matters relating to the administration of the "Ontario Temperance Act," down to the present time, be referred to a Special Committee of this House, composed of Nine Members of the Legislative Assembly, five of whom shall be nominated by the Premier and four by the Leader of the Opposition, with instructions to enquire and report upon the same and upon all matters and things which relate thereto or effect the same and with power to send for and examine all necessary persons and papers in or concerning the premises and to examine witnesses on oath and with power to sit for such purposes during any adjournment of the House. 63. Negatived, 64.

SUPPLY—*Continued.*

2. That this House disapproves of and protests against (1) the presentation to this House by the Honourable the Provincial Treasurer of financial statements which do not fairly set forth the real character of the financial transactions of the Government; (2) the extravagant and wasteful expenditure of public money by the Government, as illustrated by the annual expenditure on maintenance of the Government House, when important public services such as Education, Agriculture and Roads are in great need of further funds; (3) the concealment of specific and important items of current receipts in respect of any Department under the heading of "Casual Revenue," as illustrated by the entries made of revenue from work done by tractors, sale of seed wheat and the Dominion grant for food production, in the statement of 1917-18; (4) the treatment of receipts from the disposal of capital assets, such as timber, as current receipts, while at the same time treating the payments as on capital account when it is apparent from their nature they should be disbursed as payment out of current revenue; (5) the exorbitant cost of civil government at the present time. Negatived, 64-5.

1920.

No Resolutions offered. *First Session of U. F. O. Government.***SURROGATE COURTS ACT:**

1. Bill (No. 166), introduced to amend (1914), 189. Second reading, 218. Resolutions introduced; Lieutenant-Governor's recommendation signified; passed through Committee and referred to Bill, 226-7. House goes into Committee on, 237. Order for third reading discharged, 357.

SUBJECT.	GLOBE.	MAIL and EMPIRE.
SUPPLEMENTARY REVENUE:		
1. On Bill respecting	Apr. 26; May 3, 1906.	Apr. 26; May 3, 1906.
2. On Bill to tax certain companies, race tracks, etc.	Mar. 3, 1911	Mar. 3, 1911.
3. Discussed on Budget	Mar. 4, 1914	Mar. 4, 1914.
4. On Bill respecting increase. See <i>Mines</i> .	Apr. 8, 1914	Apr. 8, 1914.
SUPPLY:*		
On the several amendments moved to the motion "That Mr. Speaker do now leave the chair."		
1. Regretting that the Provincial Treasurer, by selling the securities of the Province at 96 <i>per cent.</i> of their par value, lost to the Province the sum of at least \$240,000, etc.	Mar. 30; Apr. 6, 1906.	Mar. 30; Apr. 6, 1906.
2. Regretting that the Government has not seen fit to require, in contracts for Central Prison labour, that all convict-made goods be labelled such.	Apr. 18, 1907	Apr. 18, 1907.
3. Regretting that the Government has not shown greater diligence in dealing with the San José Scale and other pests that infest the orchards of Ontario, greatly reducing the quantity and impairing the quality of the fruit and entailing heavy loss on the producers.	Apr. 19, 1907	Apr. 19, 1907.
4. That in the opinion of this House, as to lands now or hereafter opened for settlement, the <i>bona fide</i> settler should have the free grant of the lands, and all timber and minerals thereon or thereunder, including petroleum, subject to proper restrictions and regulations to prevent location of lands unfit for settlement for agricultural purposes. That actual settlement in Ontario should be en-	Apr. 19, 1907	Apr. 19, 1907.

*These amendments are "Want of Confidence" motions.

SUBJECT.	GLOBE.	MAIL and EMPIRE.
<p>couraged, and nothing be permitted to prevent or retard <i>bona fide</i> settlement, or the development of mineral properties, provided that where timber licenses cover land required for settlement, or mineral development, equitable arrangements be made protecting the just rights of licensees.</p>		
<p>5. That this House regrets the alarming yearly increase in the ordinary controllable expenditures of the Province during the last four years, noticeably those under the heads of Civil Government and Contingencies; the expenditure under the former (Civil Government) having risen from \$344,006 in 1904, to \$538,475 in 1907, and that under the head of Contingencies, from \$78,442 in 1904, to \$165,036 in 1907, and also regrets that the Government is open to the charge of carelessness and extravagance in several other items of large expenditure.</p>	<p>Mar. 27, 1908</p>	<p>Mar. 27, 1908.</p>
<p>6. That this House regrets, that when a proper classification of current, as distinguished from Capital Receipts and Expenditures has been made, it clearly appears that the Current Expenditures for 1908, exceeded the Current Receipts, and this House views with alarm the large increase in ordinary controllable expenditures of the Province during the past four years, particularly those under the heads of "Civil Government" and "Miscellaneous," the expenditure under Civil Government having risen from \$344,006 in 1904 to \$518,823.91 in 1908, and that under the head of Miscellaneous from \$139,007.17 in 1904 to \$468,131.30 in 1908, and this House, especially in view of the deficit</p>	<p>Mar. 12, 1909.</p>	<p>Mar. 12, 1909</p>

SUBJECT.	GLOBE.	MAIL and EMPIRE.
<p>of last year, strongly urges a curtailment of expenses particularly under the heads mentioned. This House further regrets the tremendous increase in the expenditures of this Province that are made without the annual vote of this Legislature, which expenditures last year amounted, under the three heads of "Special Statutes," "Treasury Board Minutes" and "Special Warrants," to the large sum of \$1,486,804, or seventeen and a half per cent. of the total expenditure.</p>		
<p>7. That this House regrets that when a proper classification of Current, as distinguished from Capital Receipts and Expenditures has been made, it clearly appears that the Current Expenditures for 1909 exceeded the Current Receipts, and this House therefore regrets that the Government is gradually depleting our Forest Wealth, while doing nothing by way of Re-forestation, or otherwise, to make this large source of Revenue continuous and abiding.</p>	Feb. 18, 1910	Feb. 18, 1910.
<p>This House further regrets that, because of the abolition of the Model Schools and of unwarranted and undesirable changes in Regulations, the result is, that about ten per cent. of the Public Schools of this Province are without qualified teachers and there is confusion generally as to text books and their supply.</p>		
<p>This House further regrets that, after the Government had spent a large amount of the moneys of the Province in making the necessary literary selections for the Public School readers, in furnishing illustrations, plates, electro-plating and in actually setting</p>		

SUBJECT.	GLOBE.	MAIL and EMPIRE.
<p>up the type, etc., that it should have handed the printing of the said readers over to a Toronto Departmental store at a price which does not at all represent the whole cost of the said readers, while regulating prices so as to induce the public generally to deal direct with the said Toronto Departmental Store, to the detriment and injury of the whole retail trade, in all lines, of this Province.</p> <p>This House further says that the said readers are inferior to the old readers, both as to contents and makeup, and the Primer is entirely wrong in conception, absolutely unfit for use in primary classes and should be immediately withdrawn.</p> <p>This House further regrets, that no practical steps have been taken by the Government to establish a system of Technical Schools throughout the Province, in which the mechanic and artizan may receive training supplemental to his practical training in the workshop.</p> <p>This House, while hereby approving of all legitimate means of supplying cheap power to the municipalities, further regrets that the Hydro-Electric Commission in securing easements for a transmission line did not pursue any systematic and equitable plan for the purpose of said easements, but practised a system of brow beating and dickering entirely unworthy of this Province and one which has led to absolutely inequitable results as to the amounts paid the farmers for the said easements.</p>		

SUBJECT.	GLOBE.	MAIL and EMPIRE.
<p>This House views with disappointment and alarm, the denial in recent enactments of the fundamental right of the subject to access to the Courts of Justice for the determination of matters in controversy between Subject and Subject and between Subjects and the Crown.</p>		
<p>8. That this House regrets that the Financial Statement issued by the Honourable the Provincial Treasurer is inaccurate and misleading, inasmuch as when current receipts and expenditures are classified even as classified by the present Provincial Treasurer in his Financial Statement of 1905, there is a large deficit last year of \$531,878.66.</p>	<p>Feb. 16, 1911</p>	<p>Feb. 16, 1911.</p>
<p>And this House recognizing the fact that our Forests are our greatest source of Revenue, strongly urges upon the Government the adoption of a proper system of conservation and reforestation, in order that this source of revenue may become perpetual and abiding.</p>		
<p>This House further regrets that neither the Honourable the Minister of Education, the Deputy Minister, nor the Superintendent of Education has any practical knowledge whatever of the condition of our Rural Schools, and that the result of changes improperly made by this Government has been to increase the cost of education in the Rural Schools by at least fifty per cent., and to necessitate the employing as teachers in a large percentage of said Schools of persons with no qualification whatever, either professional or non-professional.</p>		

SUBJECT.	GLOBE.	MAIL and EMPIRE.
<p>This House further regrets that this Government, while liberally aiding students in educational courses, that lead to the professions, has taken no practical steps whatever to establish a system of technical and industrial schools throughout the Province, in which the mechanic and the artizan may receive training supplementary to his practical training in the work-shop.</p>		
<p>This House further deplores the fact, that this Government is apparently of the opinion that increased population is of no benefit to this Province, and this House strongly recommends the adoption of a vigorous and active colonization scheme for peopling Northern Ontario, and regrets extremely that its settlement has been hitherto retarded by the enforcement of laws and regulations that are oppressive to the pioneer, whether prospector, miner or settler.</p>		
<p>This House deplores the growing tendency on the part of Members of the Government to introduce Federal issues into our debates, and regrets the organized attempt of Ministers and their supporters to discredit the agreement for better trade relations made between Canada and the United States, which, if consummated, will prove so beneficial to Canada, and especially to the agriculturists.</p>		
<p>9. That this House, in view of the decision of the Government to appoint counsel to represent this Province on the argument before the Supreme Court and the Privy Council of the question of the power of the Parliament of Canada to enact in whole or in part Bill No. 3 of the First Session of the 12th Parliament intituled "An Act to Amend the Marriage Act" and</p>	<p>Apr. 13, 1912</p>	<p>Apr. 13, 1912.</p>

SUBJECT.	GLOBE.	MAIL and EMPIRE.
<p>commonly known as "The Lancaster Bill" is of opinion that in view of the importance of a uniform marriage law for the whole of the Dominion of Canada, the Government should instruct counsel for this Province to support the view that the Parliament of Canada has power to enact a bill declaring the validity of all marriages celebrated throughout the Dominion of Canada.*</p>		
<p>10. That this Assembly, while prepared to approve of all reasonable expenditure to increase the efficiency of the public services of the Province, and to improve the conditions of both rural and urban life, views with apprehension the growing deficits in the Provincial finances as disclosed in the financial statement presented to the Assembly in 1911, 1912 and 1913, without any adequate provision being made for securing the necessary revenue to meet the increasing expenditures.</p>	<p>Mar. 12, 1913</p>	<p>Mar. 12, 1913.</p>
<p>That this Assembly condemns the extravagant and wasteful expenditures of the Government, as illustrated by the actual and prospective expenditure of over \$700,000 in the site, erection and furnishing of the new Government House; and this Assembly further condemns the unbusinesslike and improvident action of the Government in placing the new Government House on a site which is entirely unsuitable for the purpose, by reason of its inaccessibility and its immediate proximity to the Canadian Pacific Railway, the Grand Trunk Railway (Belt Line), the Canadian Northern Ontario Railway, and the Don Valley Brick Works.</p>		

*The amendment was proposed on motion to go into Committee of Ways and Means. See Journals of 1896, p. 185.

SUBJECT.	GLOBE.	MAIL and EMPIRE
<p>11. That in view of the rapid growth of the industrial population of the Province and the great value of fish as a cheap and wholesome food product, this House views with alarm and regret the rapid depletion of the Provincial Fisheries owing to their exploitation by the Chicago Fish Trust or Combine and the lax enforcement of the Fishery regulations as revealed in the Report of the Fish and Game Commission, 1909-11; and this House is of the opinion that the Government in failing to take any action upon the Report of the Fish and Game Commission to protect and preserve the lake fisheries of the Province has been derelict in its duty and has proven itself indifferent to the best interests of the people of this Province.</p>	<p>Mar. 19, 1913</p>	<p>Mar. 19, 1913.</p>
<p>12. That in the opinion of this House the placing at the disposal of the Executive of the Province, under the Act passed in the second year of the reign of His Majesty King George the Fifth and chaptered 2, of so large a sum as \$5,000,000 without a vote of this House appropriating the same to particular works, is contrary to our Constitutional usages: subversive of the right of the people through their representatives in the Legislative Assembly assembled to control and direct the expenditure of public moneys: in contravention of the accepted principle of voting supply for the ensuing year only, and is inimical to the best interests of the Province.</p>	<p>Apr. 2, 1913</p>	<p>Apr. 2, 1913.</p>
<p>13. That in view of the immense unoccupied areas in the Northern and North Western parts of the Province awaiting settlement and development, this House regrets that the Government</p>	<p>Apr. 3, 1913</p>	<p>Apr. 3, 1913.</p>

SUBJECT.	GLOBE.	MAIL and EMPIRE.
<p>has so far failed to devise and submit to the House any comprehensive or adequate policy for the settlement and development of these new territories.</p>		
<p>This House deprecates the attitude assumed by the Government, as set forth in the manifesto of the Prime Minister on the 31st October, 1911, that the only result of the additions to our population in the newer districts, as far as the Government of the Province is concerned, is that the annual general Provincial expenditure is increased, while the Dominion Treasury receives large sums annually by reason of the increased consumption of goods paying tariff duties, and in the older sections of the Province the amounts received for municipal taxation are increased.</p>		
<p>This House believes that good settlers are real and valuable assets and not liabilities, and that it is the duty of the Government, in addition to what is now being done in the construction of roads, to devise and carry out: (1) An aggressive publicity campaign to make known the character and resources of the Province; (2) An intelligent and vigorous immigration policy to secure the right kind of settlers; (3) Adequate transportation and drainage facilities, to promote settlement; and (4) Improved conditions of settlement.</p>		
<p>14. That this House is of the opinion that the violation of the License laws by the open sale of liquor upon steamboats and railroads within the Province, and the policy of the License Department of imposing one fine yearly on the steamboats, apparently</p>	<p>Apr. 16, 1913</p>	<p>Apr. 16, 1913.</p>

SUBJECT.	GLOBE.	MAIL and EMPIRE.
<p>as a license fee, is bringing the administration of the License laws into disrepute throughout the Province. This House is further of the opinion that the administration of the Liquor License law in Northern Ontario, and the relation of the Provincial Police thereto should be thoroughly investigated by an impartial tribunal with a view to correcting the serious abuses which are alleged to exist, and putting an end to the open and flagrant violations of the law through the operations of the so-called "blind pigs."</p>		
<p>15. That in view of the increasing danger of floods in many sections of the Province, due to certain of the rivers and streams overflowing their banks at the period of the spring freshets, causing serious destruction of property, and in view of the representations made to the Government by representatives of the municipalities on the Grand River in the year 1908, and subsequent years, urging an investigation of the matter by the Government; this House is of the opinion that the Government should no longer delay a thorough investigation of the causes of these floods and of the procedure which should be adopted in order to avoid the danger of flood and to regulate and control more effectively the flow of water in the rivers and streams of the Province.</p>	<p>Apr. 18, 1913</p>	<p>Apr. 18, 1913.</p>
<p>16. That this House disapproves of and protests against (1) the presentation to this House by the Honourable the Provincial Treasurer of financial statements which do not fairly set forth the real character of the financial transactions of the Government;</p>	<p>Mar. 10, 1914</p>	<p>Mar. 10, 1914.</p>

SUBJECT.	GLOBE.	MAIL and EMPIRE.
<p>(2) the extravagant and wasteful expenditure of public money by the Government, as illustrated by the expenditure on new Government House, when important public service such as Education and Agriculture are in great need of further funds; (3) the vicious system of raising moneys on the credit of the Province for particular purposes authorized by the Legislature, and then applying these trust funds to other purposes—as illustrated by the use during the year 1913 of over \$600,000 raised for Northern Ontario, for other purposes.</p>		
<p>17. That in view of the fact that the Financial Statements and Estimates presented to the House by the Government are so incomplete that it is not possible for the Members of the House to properly estimate the total expenditure for the year, this House should not be called upon to vote further supply until the Government lays before the House a fuller statement of the total estimated expenditure for the current year, particularly the statutory expenditure, which for the year 1913 amounted to \$4,694,676.79, in order that the Members of the House may see what will be the prospective deficit on the year's financial operations.</p>	Mar. 19, 1914 ...	Mar. 19, 1914.
<p>18. That in view of the statements contained in the prospectus or memorandum offering \$1,000,000 of the First Mortgage Bonds of the Lake Huron and Northern Ontario Railway Company (which prospectus or memorandum includes the statement of the Vice-President and General Manager and the Engineer's Report), and in view of the further statement of the Engineer's Report that the cash</p>	Apr. 22, 1914	Apr. 22, 1914.

SUBJECT.	GLOBE.	MAIL and EMPIRE.
<p>subsidy and land grant associated with this charter gives us a basis of estimating an unquestionable present worth value of \$9,338,400, made up as follows:—</p> <p>306 miles at a subsidy of \$6,400 per mile\$1,958,400 00 1,230,000 acres of land at \$6 per acre 7,380,000 00</p> <hr/> <p>Total\$9,338,400 00</p>		
<p>And in view of the further statement that the bond issue is protected by a subsidy of \$6,400 per mile granted by the Dominion Government and 4,000 acres of land per mile granted as a bonus by the Province of Ontario, which land is adjacent to the line and which, at a reasonable valuation is worth from \$8 to \$10 per acre.</p> <p>This House condemns the policy of the Government in alienating large and most valuable areas of the Public Domain to railway exploiters without adequate return to the people of the Province.</p>		
<p>19. That this House condemns the deplorable waste and misuse of the public funds of the Province, arising out of the present system of expending the moneys voted for colonization roads, whereby the moneys are distributed among the political supporters of the Government, a few hundred dollars each and disbursed as they think best without having regard to the development and maintenance of an adequate system of roads in each district; and this House is of the opinion that the continuation of the said system, which involves the annual loss to the Province of thousands of dollars, is</p>	<p>Mar. 16, 1917</p>	<p>Mar. 16, 1917.</p>

SUBJECT.	GLOBE.	MAIL and EMPIRE.
<p>wholly inexcusable and indefensible, particularly at war time when it is the duty of the Government to lead the country in the practice of economy and thrift; and this House is further of the opinion that the best interests of the Province demand that the whole system should be immediately discontinued and that in organized townships moneys voted by the Legislature for colonization roads should be paid to and expended by the municipal corporations of such townships, under the supervision of the Government, and that in unorganized townships the work should be let by tender after adequate public notice so there may be free competition.*</p>		
<p>20. That in view of the present high cost of living and the increasing burden upon the working classes and those in receipt of limited incomes, due to the high cost of the necessities of life, this House condemns the abandonment by the Government of the investigation and prosecution of the illegal combines formed to limit competition and to enhance prices, notwithstanding the advice of the then Crown Attorney of the City of Toronto that these combines were violating the provisions of the Criminal Code, and that the Government was in possession of the necessary evidence to proceed with prosecution; and this House is of the opinion that these illegal combines to enhance prices still exist in the Province, and that it is the duty of the Government to investigate all alleged illegal combinations in restraint of trade and to prosecute vigorously all those</p>	<p>Mar. 29, 1917</p>	<p>Mar. 29, 1917.</p>

* The Sessions of 1915, 1916, 1918, being the "War Sessions," no amendments were moved.

SUBJECT.	GLOBE.	MAIL and EMPIRE.
<p>which appear to be violating the law, and to take all such further action as may protect the consumer against the cost of the necessities of life being unduly enhanced by monopolies and combines which unfairly limit that competition.</p>		
<p>21.. That this House regrets that notwithstanding the war the Government has continued its extravagant and wasteful expenditures in the building and furnishing of Government House, over \$400,000 having been expended since the outbreak of the war, with a total cost to date of over \$1,000,000;</p>	<p>Apr. 4, 1917</p>	<p>Apr. 4, 1917.</p>
<p>And this House is of the opinion that so expensive a Government House is out of harmony with the democratic spirit of the people of the Province.</p>		
<p>22. That in view of the finding of the Royal Ontario Nickel Commission that any of the processes now in use for refining nickel could be successfully worked in Ontario, and that conditions and facilities are at least as good in this Province as in any other part of Canada, and "there is reason to believe that the cost of refining in the International Nickel Company's new plant at Port Colborne will be less than at their existing works in New Jersey;"</p>	<p>Apr. 5, 1917</p>	<p>Apr. 5, 1917.</p>
<p>And further referring to future wars, that "If the United States were to decide she needed for her own use the nickel now being refined there from Canadian ore . . . the result might well be a shortage of nickel, while the need was at its height; and a shortness of nickel might be a weakness sufficient to determine the issue of the war;"</p>		

SUBJECT.	GLOBE.	MAIL and EMPIRE.
<p>And in further view of the finding of the Commission that the nickel ore deposits of Ontario are much more extensive and offer better facilities for the production of the nickel at a low cost than do those of any other country, "and that when normal peace conditions are fully restored, the demand will be greater than it was before the war;"</p>		
<p>And in further view of the interest which the Government of the United Kingdom has taken in recent years in the Ontario nickel deposits, and of the financial interest they have recently acquired in one of our Canadian nickel companies;</p>		
<p>This House is of the opinion that negotiations should be at once entered into by the Government of this Province with the Governments of the United Kingdom and of the Dominion of Canada to secure united action to acquire the absolute control of the nickel mines and nickel product of the Province of Ontario; and that, in the meantime, the Government of Ontario should take proceedings to acquire, construct or otherwise secure the control of nickel refining plant in this Province where all nickel mined in this Province could be refined.</p>		
<p>23. That the Accounts for the years 1913-14, 1914-15, 1915-16, 1916-17, 1917-18 and for the portion of the year 1918-19, down to the 28th day of February, 1919, relating to the License Branch of the Provincial Secretary's Department, the enforcement of the Liquor License Act and the enforcement of the "Ontario Temperance Act" and all matters relat-</p>	<p>Mar. 21, 1919 . . .</p>	<p>Mar. 21, 1919.</p>

MAIL and EMPIRE.

ing to the administration of the "Ontario Temperance Act," down to the present time, be referred to a Special Committee of this House, composed of nine members of the Legislative Assembly, five of whom shall be nominated by the Premier and four by the Leader of the Opposition, with instructions to enquire and report upon the same and upon all matters and things which relate thereto or affect the same and with power to send for and examine all necessary persons and papers in or concerning the premises and to examine witnesses on oath and with power to sit for such purposes during any adjournment of the House.

24. That this House disapproves of and protests against (1) the presentation to this House by the Honourable the Provincial Treasurer of financial statements which do not fairly set forth the real character of the financial transactions of the Government; (2) the extravagant and wasteful expenditure of public money by the Government, as illustrated by the annual expenditure on maintenance of the Government House, when important public services such as Education, Agriculture and Roads are in great need of further funds; (3) the concealment of specific and important items of current receipts in respect of any Department under the heading of "Casual Revenue," as illustrated by the entries made of revenue from work done by tractors, sale of seed wheat and the Dominion grant for food production, in the statement for 1917-18; (4) the treatment of receipts from the disposal of capital assets, such as timber, as current receipts, while at the same time treat-
